

Health and Safety Update 2024

Open letter to Multiple District 202 Lions Clubs

Dear Friends

From time-to-time areas of our organisation need a tune-up, the area of Health and Safety for Lions NZ has undergone some work in the background this has seen a policy re-write and development of new tools to encourage us all to do safety. The safety of members is an act of service.

The 1st October will be the first obvious sign with the taking down of the old forms from the Lions NZ website. From their the new tools will be put up and supported.

I understand that parts of this change may be either confronting or confusing, please make contact with me and I personally will walk you through the journey.

Graeme Dewhurst

MD202 Health and Safety Coordinator
